2. Old Business

B. Reports

Shelter Reports- Elaine Smith

Director, Elaine Smith provided an update on shelter statistics. Live release has declined slightly due to intake, this is also an issue with surrounding shelters. The shelter has held adoption promotions to help decrease the number of animals in the shelter, however, the shelter is still remaining full. Board member, Jennifer Castello has recommended more community education as citizens often believe myths surrounding spaying and neutering pets.

3. New Business

Director, Elaine Smith discussed the shelters plan of picking neighborhoods and setting up locations so citizens can receive vaccines, food and supplies as well as discuss standard care and spay/neutering. The goal is to help our citizens as well as establish a good relationship with our community.

4. Board Member Comments
